

All the inmates have returned back to the unit at 3:40am. I also sent inmates [REDACTED] and [REDACTED] to Triage at FCI for the same issue. Neither one of them went to Grace hospital for treatment. They were told to go see our medical dept in the morning and be evaluated by our doctor at the same time.

Subject: Inmates from Sanitation with Chemical burns

Tonight three out of four inmates that had chemical burns on their legs came back to the unit early. They reported to me that Cal-Clean refused to send them to the doctor to be evaluated. Instead the supervisor only gave them diaper rash cream to put on the burns and he put them out of work for one day. Since the inmates had been dealing with this issue since Friday and it was not getting any better I called Mr. Suttles at home and advised him of the situation. We then decided to go ahead and contact our medical dept. since Cal-Clean did not send them out to be treated. I called triage at approximately 8:40pm and they were sent over to be evaluated. At this time inmates [REDACTED] and [REDACTED] ^{name 2} have all been evaluated and sent out to the hospital for treatment. Inmate [REDACTED] who was the fourth one burnt by the chemicals is still at work at this time. When he returns to camp he will be sent over to be evaluated also by triage unless he signs a refusal form by medical.
